Food Contact Material Declaration

(This is an intermediate declaration and will be replaced latest 1 September 2010)

We declare that the chemical composition of the product Aropol K 530 produced and supplied by Ashland complies with the relevant provisions of the legislation in place in the European Union on material and articles intended to come in contact with food and can accordingly be marketed and used throughout the European Union based on the fact that the monomers, the other starting substances and additives are listed on Annex II and Annex III of the Commission Directive 2002/72/EC as amended by 2004/19/EC, 2005/79/EC, 2007/19/CE and 2008/39/EC.

It is the responsibility of the composite fabricator using Aropol K 530 to apply a suitable catalyst system and curing system in order to guarantee that the final article complies with the Directive 2002/72/EC in terms of overall and specific migration limits.

This declaration has been prepared and issued on the basis of currently applicable laws and regulations and to our best knowledge and expertise currently available.

Best Regards
